Abena & the Environment

OVER 30 YEARS OF CERTIFIED SAFE & ECO-FRIENDLY PRODUCTS

WE PROTECT YOU AND THE ENVIRONMENT

At Abena, our mission is to provide the most effective and gentle line of eco-friendly healthcare solutions on the market. Our responsibly-sourced products are made from sustainable materials and certified hypoallergenic so they are gentle for you and the environment.

Each year we voluntarily invite inspectors to perform the most stringent and rigorous tests available on all facets of our manufacturing lifecycle encompassing raw material acquisition, production, consumption, and waste.

DESIGNING PRODUCTS

THAT POSITIVELY

TOMORROW

WE HAVE RECEIVED MULTIPLE THIRD PARTY CERTIFICATIONS.
THEREFORE, YOU CAN DO BUSINESS WITH US WITH A CLEAN CONSCIENCE.

ASTHMA ALLERGY DENMARK

It can be difficult to assess allergy risks by yourself - for many products, it is not possible at all, as manufacturers are not required to declare all ingredients. If you choose products labelled with The Blue Asthma Allergy Label, we have done the hard work for you.

NORDIC SWAN ECOLABEL

The Nordic Swan Ecolabel is a voluntary ecolabel certification that evaluates a product's impact on the environment throughout the entire life cycle. The label guarantees among other things that climate requirements are taken into account and that CO2 emissions (and other harmful gasses) are limited.

FOREST STEWARDSHIP COUNCIL

FSC works to ensure forests are responsibly managed. Because FSC is the gold standard in forest certification, it is the only system supported by groups such as World Wildlife Fund, Sierra Club, Greenpeace, Natural Resources Defense Council and National Wildlife Federation.

UN GLOBAL COMPACT

The United Nations Global Compact is a United Nations initiative to encourage businesses worldwide to adopt sustainable and socially responsible policies and to report on their implementation.
